### BUNGE

Since November, 2009, Mr. Tomazoni has been BUNGE BRASIL's Vice President – Food & Ingredients. Bunge was founded in 1818, in the Netherlands and began its activities in Brazil in 1905 when it joined the Moinho Santista, in Santos, SP. It is present in 17 Brazilian states, with plants and storage facilities, distribution centers, business offices and port terminals. Currently it employs about 20 thousand people in their units and has relationships with about 60 thousand farmers. It sells millions of tonnes of soybeans, wheat, corn, cottonseed, sunflower, sorghum, sugar and ethanol per year.

Bunge is now the largest agribusiness and food company in Brazil, working in an integrated way, producing from the farm to the final consumer. It is a leader in the market of grains, especially soybeans, in the production of meals, the refining of vegetable oils, production of margarines, oils and fats, and the manufacture of wheat flour and premixes for bakery sectors, restaurants and cafeterias, in addition to the industries of biscuits, pasta, breads, cakes, fried foods, etc.. It is the largest exporter of agribusiness and third largest in the national ranking.

Their final products are sold through traditional and well known brands to Brazilian consumers, such as Delicia, Cyclus, Primor, Salada, Soya and Bunge Pro, Betamix, Gradina. Since November, 2009, Mr. Tomazoni has been in charge of the Foods & Ingredients area, as Vice President.
